RE: Middle and High School Ministry

As Patrick Donovan addressed on last week's Pastor's Meeting, it is "time for every parish to answer the question about how they will meet the needs of young people." In order to properly answer this question, the Committee on Middle and High School Ministry has asked that I meet with a representative of each parish to learn about current opportunities for young people.

To this end, I have sent an email invitation to each Youth Minister in our database, hoping to have a conversation and learn from their experiences. I urge you to speak to the person in your parish responsible for this ministry, and encourage them to contact me if they have not already done so. If you do not have anyone currently serving young people in middle school and high school, please email me at andres.lapadula@diobpt.org so we can have a conversation about how to get started.

I thank you for your help in this matter and wish you a fruitful Lent and blessed Holy Week.
